

How to Change a Uniview Camera's System Time?

How to Change a Uniview Camera's System Time?

Description

Note: This method is applicable to most scenarios. If the method cannot solve your problem, it is recommended to consult our Tech Support Team. <u>https://global.uniview.com/Support/Service_Hotline/</u>

Operating Steps

Change from the camera's web interface

Step 1 Log into the camera's web interface.

Step 2 Go to **Setup>System>Time** to change the system time manually in the **Set Time** field.

	Product:	IPC	Date	9/26/2023

Step 2 Choose a way to change the device's time zone and system time.

Change manually: Manually change the time zone and system time.

Sync with computer time: Click **Sync with Computer Time** to sync the device's system time with the computer's system time.

Enable Auto Update: Set the NTP server address, port, and update interval, and the device's system time will automatically synchronize with the NTP server time.
